MyPowerClock ...it's about time.

MyPowerClock is the world's easiest to use, easiest to set, alarm clock/countdown timer. Use any of the 8 patented "Quickset" buttons to set the desired time. The "+" and "-" buttons add or subtract single minutes, similar to a standard calculator. Choose either audible or silent/vibration mode by simply opening the clear dome cover. MyPowerClock is truly personalized and perfect for a multitude of users, and uses. It's pocket size makes it the perfect choice for home, travel, meetings, classrooms, grilling, or to slip under a pillow. MyPowerClock fits in the palm of your hand and sits nicely on a desk, countertop or bedside.

About AKA WORLDWIDE, LLC

AKA WORLDWIDE, LLC is located in Lancaster, PA. The business was started by two partners, Don Anderson and Mike Kellam, in 2006. The first product, MyPowerClock, was developed with a simplistic movement in mind. It is the world's first one-button alarm clock/reminder. Push a button, set an alarm. Life can be difficult, setting an alarm shouldn't be. The company's focus is on creating, manufacturing, and marketing a high quality, reliable tool that everyone will find useful.
