

Instructions

1. Remove Battery Cover and Install Batteries (3 AAA Batteries Included)

- a. Hold the clock, face down, in your hand so you can see the battery cover.
- b. Place the palm of your hand on the cover and twist 1/4" to the left.
- c. Flip the clock over and the battery cover will drop out.
- d. Insert batteries as marked inside the case (match + and - to battery direction).
- e. Replace cover and lock in place by turning to the right.

2. Set or Adjust Real Time

- a. Hold down the **C** button for 5 seconds. The hour will begin flashing.
- b. Add or subtract to set the hour by using the **+** or **-** buttons.
- c. After setting the hour, press the **C** button once. The minutes will begin flashing.
- d. Add or subtract to set the minutes by using the **+** or **-** buttons.
- e. After setting the minutes, press the **C** button again. The time is now set.

3. Easily Set Your Alarm / Reminder Using Our Patented "QuickSet" Buttons

- a. Use any of our "QuickSet" buttons to set your countdown.
- b. Any combination countdown time can easily be set, (similar to a calculator).
- c. The **+** and **-** buttons will add or subtract single minutes during the setting mode.
- d. Your countdown will begin 5 seconds after you complete your setting.
- e. Turn off the alarm, or clear the countdown time, by pressing the **C** button. (Clock must be in countdown mode to clear the countdown time).
